Current Market Analysis

As ever, tech contractors remain crucial to the growth of businesses without the commitment of taking a FTE.

While some companies have delayed hiring due to economic pressures, others are leveraging contractors to fill immediate project needs, given their flexibility compared to permanent staff. However, overall contractor demand remains below pre-pandemic levels, with sporadic signs of recovery.

This means contractors are readily available and at Oscar we can commit to a 48 hour SLA to get a contractor on board, to ensure the smooth and successful delivery of your projects.
